What is the Law of Assumption?

The Law of Assumption is one of the core principles of Neville Goddard's teachings. It states that whatever you assume to be true will become your reality. This means that you have the power to create your own reality through your thoughts and beliefs.

For example, if you assume that you are wealthy, then you will begin to attract wealth into your life. If you assume that you are healthy, then you will begin to experience better health. The Law of Assumption works because it taps into the power of your subconscious mind.

Your subconscious mind is like a computer that is constantly recording your thoughts and beliefs. When you assume something to be true, your subconscious mind accepts it as fact and begins to work towards making it a reality.

How to Use the Law of Assumption

To use the Law of Assumption, you need to first identify the things you want to manifest in your life. Once you have identified your desires, you need to start assuming that they are already true.

For example, if you want to manifest a new car, then you need to start assuming that you already have it. You can do this by visualizing yourself driving the car, feeling the steering wheel in your hands, and smelling the new car smell.

The more you assume that your desires are already true, the faster they will manifest in your life. It is important to be patient and persistent, and to never give up on your dreams.

"Mastering Your Inner World" is a powerful guide to Neville Goddard's teachings. This book will help you to understand the Law of Assumption and how to use it to create the life you have always dreamed of. If you are ready to take your personal development to the next level, then this book is for you.
