This book explores the complex and evolving legal and religious landscape of Europe, providing a comprehensive overview of the challenges and opportunities facing pluralist societies in the 21st century.

Europe is a continent with a long and rich history of religious diversity. In recent decades, this diversity has become even more pronounced, as a result of immigration from all over the world. This has led to a number of challenges for European societies, including how to accommodate the religious needs of new arrivals, and how to protect the rights of all citizens, regardless of their religious beliefs.

This book brings together a team of leading scholars from a variety of disciplines to explore these challenges. The authors examine the legal and religious frameworks that govern religious diversity in Europe, and they discuss the challenges and opportunities that these frameworks present. They also provide case studies of how different European countries have approached the issue of religious diversity.

This book is an essential resource for anyone interested in the challenges and opportunities facing pluralist societies in the 21st century. It will be of

particular interest to scholars of law, religion, and political science, as well as policymakers and activists working in the field of religious diversity.
